

# GCEExpress Live!

Versatile media tools facilitate effective implementation –guiding classroom discussion, equipping discussion leaders, and inspiring student engagement.

GCLive! presentation slides anchor each Great Choices lesson, providing both new and experienced college and career planning mentors, teachers, and leaders with effective supports for delivering dynamic and meaningful guidance lessons.

**21st Century Readiness**

Technology and economics require higher skills and knowledge in virtually every field.

What field are you considering?  
What skills are required?

**Matching Interests and Careers**

Three Steps to the Finding the Match!

1. Know Yourself
2. Know Your Options
3. Make a Decision

**Know Yourself**

- Think about who you are.
- Identify/confirm your career goals.
- Consider careers compatible with you and your goals.

Complete a personal profile!

**A Profile is More than a List!**

Worksheet #1: Personal Profile

Making choices starts with interviewing yourself! Complete the following questions to begin the process of understanding the kind of college or careers that will best suit you.

Personal History:  
List your past and present job or work experiences.

Which jobs did you like best and why?

Notes:

Page one begins with a list and continues with thoughtful questions.

This pattern is repeated throughout the profile.

Make your results helpful by thinking about each question and writing meaningful reflections.
